BEA GINNINGS

TWO FANTASTIC FAMILY TRIPS TO ALTON TOWERS TO BE WON!

NEW! Hex — The Legend of the Towers

Opened in April 2000 is Hex — a unique and chilling ride located in the 19th century ruins at the centre of Alton Towers. Inspired by local folklore, Hex is an eerie and disorientating ride experience featuring spectacular special effects. Visitors are drawn into the suspense-filled action as they journey on foot through ancient galleries and icy vaults, eventually experiencing '360 degrees' of total disorientation in the ride's awesome culmination. It's a journey that ends on the other side... you have been warned!

● Need an adrenaline fix? Alton Towers has five of the most terrifying white knuckle rides in the world — Oblivion, Nemesis, Ripsaw, Black Hole and Corkscrew. These are all rides with a scary reputation designed to take you to the edge of your sanity, and now yours is on the line.

● Purplemania returns to Alton Towers — Barney™ the Purple Dinosaur, Baby Bop™ and BJ™ are making Alton Towers their home for the whole season, and they will be putting on their all singing, all dancing live shows daily. Plus 'Barney's Playground' an indoor play area with a unique crawling area for babies, has been introduced this season.

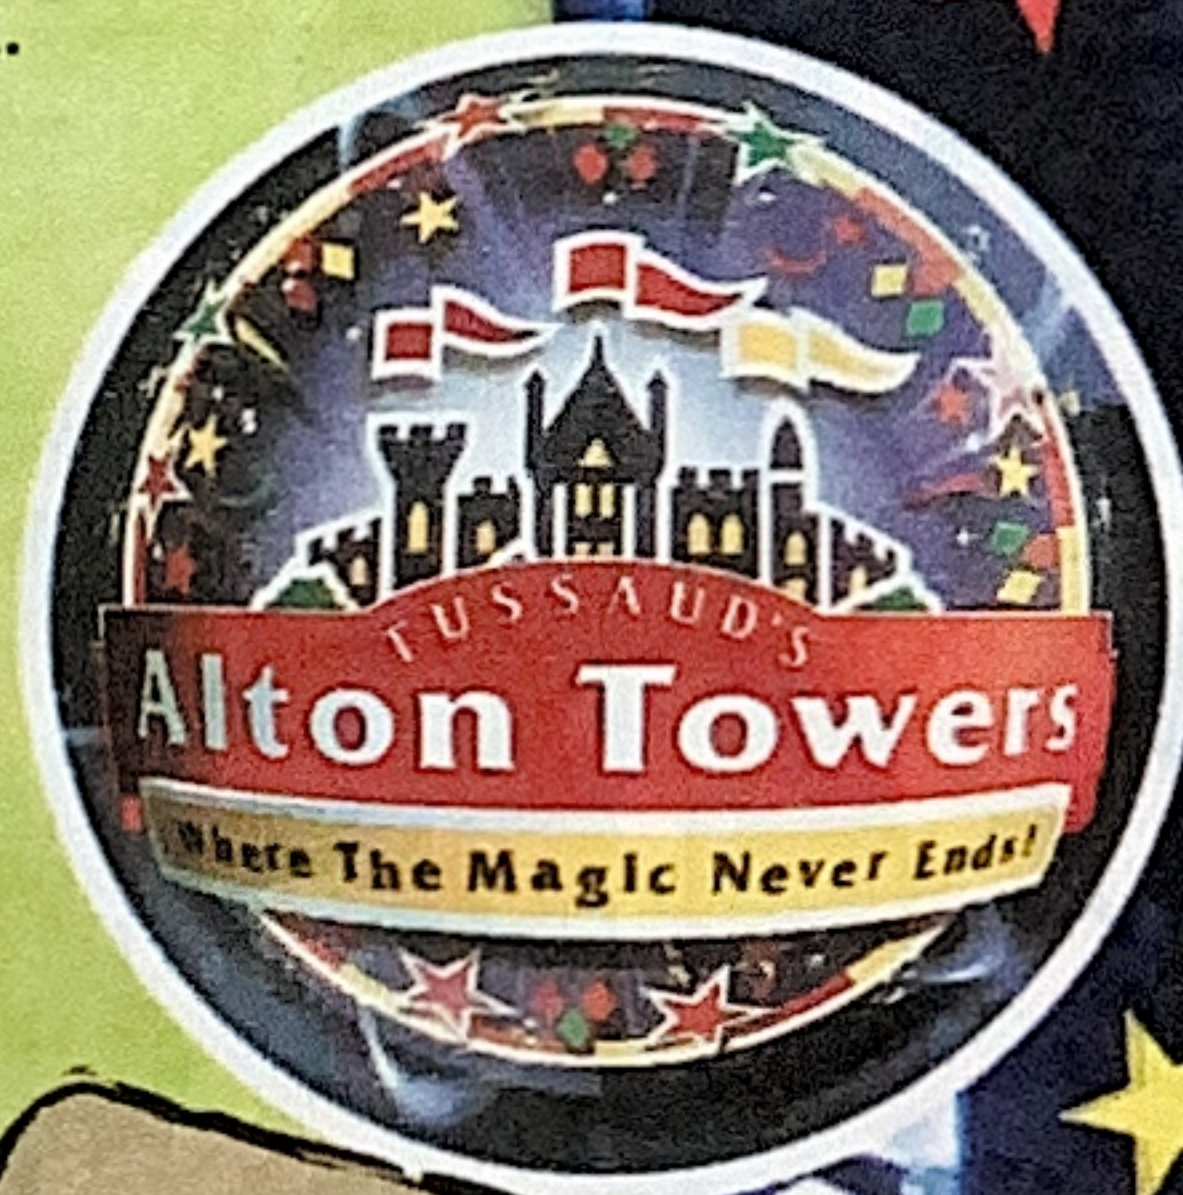

● There's more than ever to pack into a day out at Alton Towers. Numerous special events are planned throughout the year aimed at everyone from families to teens to tots. In particular look out for the Summer Spectacular with the Royal Marines Commando Display Team 5th-28th August.

● At a glance the new pricing is as follows:

Adult 1 day	16.00	21.00
Child 1 day	13.00	17.00
